TERMS OF REFERENCE

For the Afghanistan COVID-19 Emergency Response and Health System Preparedness Project: (P173775)

A. Background

A Cluster of pneumonia of unknown cause detected in Wuhan, China was first reported to the WHO Country Office in China on December 31, 2019. On February 11, 2020 the World Health Organization announced an official name for the disease that is causing the 2019 novel coronavirus outbreak, first identified in Wuhan China. The new name of this disease is coronavirus disease 2019, abbreviated as COVID-19. In COVID-19, 'CO' stands for 'corona,' 'VI' for 'virus,' and 'D' for disease. Formerly, this disease was referred to as "2019 novel coronavirus" or "2019-nCoV".

This virus was first detected in Wuhan City, Hubei Province, China. The first infections were linked to a live animal market, but the virus is now spreading from person-to-person. It's important to note that person-to-person spread can happen on a continuum. The virus that causes COVID-19 seems to be spreading easily and sustainably in the community ("community spread") in some affected geographic areas. That is why CDC recommends that these patients be isolated either in the hospital or at home (depending on how sick they are) until they are better and no longer pose a risk of infecting others.

WHO announced COVID-19 outbreak a pandemic on March 11, 2020. As of today, April 2, 2020, around one million people have been sickened in 203 countries and around 50,000 have died of the coronavirus and more than 200,000 people have recovered, the World Health Organization (WHO) and figures from health officials.

Afghanistan has had a total of 665 confirmed cases of COVID-19 (Coronavirus). Herat province has the highest number of confirmed cases.

The Government of Afghanistan has re-opened its border with Iran, which had been closed briefly to all air and ground travels. The Ministry of Public Health (MoPH) has assigned health teams to airports and land borders to screen passengers for symptoms of COVID-19. All passengers who have traveled to China, Iran, Italy, or South Korea and countries with community spread during the one month prior to arrival in Afghanistan are separated from other passengers, checked for symptoms of COVID-19, and those with symptoms will be taken directly to a designated hospital for testing.

In response to this outbreak the MoPH has started some measures nationwide including establishing the Center for Combating Covid-19 in central level, headed by the Minister of Public Health. Also established committees at the central level on health services, planning, capacity building and support areas. The same structure is established at the provincial level headed by the Provincial Public Health Directors focus on health services and functionalizing a district center.

Considering the rapid spread of this outbreak, potential for greater loss of life and geographical location of Afghanistan in neighboring to Iran, the government of Afghanistan called for humanitarian assistance to fight against COVID-19 in the country. In response the World Bank

327

has proposed an emergency response project called “Afghanistan COVID-19 Emergency Response and Health System Preparedness project”.

B. OVER ALL OBJECTIVES

The overall objectives of the project are to protect our citizens from the spread of COVID-19; to respond and mitigate the threat posed by COVID-19 in Afghanistan and to strengthen national health systems preparedness and capacity to respond to public health emergencies. Time: 4:00 PM – 9:00 PM and 10:00 am-12:00 pm
Venue: Online Contract Negotiations and GCMU meeting room

Agenda: Clarification of the technical and rationalization of financial proposal

Background:

A cluster of pneumonia of unknown cause detected in Wuhan, China was first reported to the WHO Country Office in China on December 31, 2019 and WHO announced COVID-19 outbreak a pandemic on March 11, 2020.

Afghanistan has had a total of 4687 confirmed cases of COVID-19 (Coronavirus). Kabul province has the highest number of confirmed cases.

Considering the rapid spread of this outbreak and potential for greater loss of life, the government of Afghanistan called for humanitarian assistance to fight against COVID-19. In response the World Bank has proposed a project called "Afghanistan COVID-19 Emergency Response and Health System Preparedness project". Based on the agreement between Afghanistan government and the World Bank, the Ministry of Public Health (MoPH) started to contract the implementation of COVID-19 ERHSP project with the current Sehatmandi BPHS/EPHS service providers (SP) through direct selection method in 31 provinces and 3 SM provinces.

Therefore, MRCA was requested to submit a brief technical and financial proposals for Nimroz province. After the review of the proposals, the MRCA organization was invited for contract negotiations.
