AMENDMENTS IN APPENDICES: the following appendices are amended as: APPENDIX A: This appendix replaces the earlier appendix A (Terms of References):

### TERMS OF REFERENCE

For the Afghanistan COVID-19 Emergency Response and Health System Preparedness Project (ERHSP), Project ID: (P173775)

### A. Background

A cluster of pneumonia of unknown cause detected in Wuhan, China was first reported to the WHO Country Office in China on December 31, 2019. On February 11, 2020 the World Health Organization announced an official name for the disease that is causing the 2019 novel coronavirus outbreak, first identified in Wuhan China. The new name of this disease is coronavirus disease 2019, abbreviated as COVID-19. In COVID-19, 'CO' stands for 'corona,' 'VI' for 'virus,' and 'D' for disease. Formerly, this disease was referred to as "2019 novel coronavirus" or "2019-nCoV".

This virus was first detected in Wuhan City, Hubei Province, China. The first infections were linked to a live animal market, but the virus is now spreading from person-to-person. It's important to note that person-to-person spread can happen on a continuum. The virus that causes COVID-19 seems to be spreading easily and sustainably in the community ("community spread") in some affected geographic areas. That is why CDC recommends that these patients be isolated either in the hospital or at home (depending on how sick they are) until they are better and no longer pose a risk of infecting others.

WHO announced COVID-19 outbreak a pandemic on March 11, 2020. As of today, Oct 17, 2020, around 40 million people have been infected in 213 countries and more than 1 million have died of the coronavirus and more than 29 million people have recovered.

Afghanistan has had around 40,000 confirmed cases of COVID-19, around 1500 have died and 33500 people have recovered (Coronavirus). Kabul province has the highest number of confirmed

In response to this outbreak the MoPH has started some measures nationwide including establishing the Center for Combating Covid-19 in central level, headed by the Minister of Public Health. Also established committees at the central level on health services, planning, capacity building and support areas.

Considering the possibility of second wave of COVID-19 particularly in upcoming winter, the Ministry of Public Health planned to continue the NGOs contract under Afghanistan COVID-19 Emergency Response and Health System Preparedness project supporting by the World Bank.

### OVERALL OBJECTIVES:

The overall objectives of the project are to protect our citizens from the spread of COVID-19; to respond and mitigate the threat posed by COVID-19 in Afghanistan and to strengthen national health systems preparedness and capacity to respond to public health emergencies. One of the aims of this project is to avoid disruption of BPHS/EPHS service delivery under Sehatmandi project.

### The specific objectives of this project are:

- 1. To increase public awareness and promote healthy behaviors in regard to COVID-19
- 2. To conduct community surveillance and early detection of COVID-19 suspected cases
- To manage and isolate cases
  To regularly supply and isolate cases
  To regularly supply and isolate cases
- at the denies, and other materials

4.

- 5. To ensure proper screening of visitors/clients at points of entry which may include flights, road highways, main borders...etc.
- 6. To ensure infection prevention and control measures at the health facilities and community level

### C. SCOPE OF SERVICES:

Although the scope of the overall project is nationwide, this contract will cover the entire population of the Urozgan province including returnees, Kochies and IDPs. The primary project beneficiaries will be infected people, at-risk populations, medical and emergency personnel as well as service providers (both public and private), medical and testing facilities staff. Staff of key technical departments and provincial mealth offices will also benefit from the project as their capabilities increase through the strength of statitutional capacity of the MoPH.

The service provider will be involved in the national, provincial and district level mechanisms to combat the epidemic and support the structure and functions described by the MoPH at all these levels. The SPs are required to ensure proper staffing, training, and efficient logistics to functionalize the provincial and district level centers for combating corona virus epidemic.

- i. At Provincial Level: There is a provincial Center for Combating Corona virus, headed by the Provincial governor and/or Provincial Health director. The center will have four main functions a) health services, b) surveillance c) monitoring and risk communication; d) logistic/ finance support. The Service provider needs to be engaged actively in all four functions and work closely with the provincial center.
- ii. At District Level: At each district level, there should be one District Center (DC). District Hospital (DH) should be chosen preferably as DC; in locations where a DH is not available to serve as DC, a CHC+, CHC, or BHC should be selected. One technical staff (MD or nurse) preferably female to be deployed in each DC. The staff at DC to carry out key interventions including, medical consultation, screening, referral, risk communication, facilitate sampling of COVID-19 suspected cases, coordination between RRTs and COVID-19 hospital, reporting of surveillance data and other tasks instructed by his/her line manager.
- iii. The Rapid Response Team (RRT) to be functionalized per 300,000 population according to the MoPH instruction. All the SPs are required to ensure that RRTs are deployed to achieve key activities including: sample collection, contact tracing, and data entry, risk communication (case referral), transport of samples to lab site, and medical consultation of mild and moderate cases as well as establishing coordination with ambulance services for managing severe and critical cases.

The number of RRTs will be modified based on COVID-19 situation in the country or province. As such, the contract shall be amended accordingly.

The RRT should have one MD, one Public Health graduate (preferred)/nurse and one lab technician (as per the MoPH developed Job Description for RRTs). Each RRT will be equipped with one vehicle/ or any other available transportation means, tablets for data entry purposes, essential diagnostic tools (infrared/thermometer, sphygmomanometer, stethoscope, pulse oximeter), and PPE kits. The SP is responsible to cover urban areas of each province by the same services through RRTs.

### The details of tasks are explained below:

### 1. Risk Communication (Public awareness and promotion of healthy behaviors)

The service provider should maintain proper communication with the entire population to update them on the existing facilities, where they should attend if they have any problems, who to call if they have problem and how/ why to change their behavior to protect themselves and others around them. Using available channels to establish two-way communication with the people is the priority required from the Service Providers. The SP should follow the updated risk communication SoP/Guideline provided by MoPH related to COVID-19. In addition, the SPs shall distribute functional contact details of RRTs with those who need assistance at community level

### 2. Early detection and surveillance of cases at community level:

Headquarter

i. Passive surveillance: All health facilities are responsible to report immediately any suspected cases that manifestive case definition of COVID-19 to related RRTs.

- Contact tracing: Contact tracing shall be done to identify suspected secondary contact cases and in case of developing signs and symptoms with immediate evacuation.
- iii. Follow up of people in home quarantine: The service provider to follow the suspected people at their residence and provide health education through RRTs and CHWs network as per the quarantine guideline of MoPH which include home quarantine guidance. In case of developing any signs and symptoms to be referred to COVID-19 ward/hospital.
- iv. - 3. To manage and isolate COVID-19 suspected and confirmed cases: The SP is responsible to deliver essential health care services to the people who are infected with COVID-19. Maintain/operationalize COVID-19 ward/hospital for severe and critical cases. The MoPH has already provided the infrastructures in the province; the SP will be responsible to rationalize staffing based on HR plan, beds, and running the ward/hospital. The need for increasing/decreasing number of beds shall be subject to certain criteria which will be determined by the MoPH. As per the MoPH guideline, the mild and moderate COVID-19 cases should be advised to stay at their home and the SP should trace their contacts. Moreover, SP needs to refer severe and critical suspected cases directly to COVID-19 hospitals for further case management based on hospital SoPs for COVID-19 cases

### 4. To regularly supply oxygen, medicines, and other materials:

- a. The SP should develop a comprehensive plan to supply the COVID-19 ward/hospital RRTs and DCs on regular basis.
- b. The SP is responsible to provide the required amount of oxygen to COVID-19 ward/hospital (for severe and critical patients) based on need and circumstances.
- c. The SP is responsible to supply required medicines to all the COVID-19 wards/hospitals. This shall be applicable until the medicine supplies are carried out by UNICEF. However, the necessary equipment will be provided by MoPH through UN agency.
- d. Service provider will supply medical materials/consumables and other logistics required for COVID-19 patients rather than purchased by UN agency.
- The SP is responsible to provide heating materials (winterization supplies) for COVID-19 ward/hospital.
- To ensure proper screening of visitors/clients at points of entry which may include flights, road highways, main borders: This intervention shall be implemented in accordance with the MoPH Screening Guideline which has been adopted based on International Health Regulation (IHR-2005).
- 6. Infection prevention and control measures at health facility level: The COVID-19 outbreak could last for a long time at community level. Depending on the severity of the outbreak, the SP may recommend community actions to help keep people healthy, reduce exposures to COVID-19, and slow down the spread of the disease.

The SP should make sure that infection prevention and control measures are taken in both health facility (COVID-19 and REPESTEPIS), and community levels. The SP should develop

4.

a plan for cascading of IPC training and monitoring the implementation of IPC at RRTs and COVID-19 hospital/ward. In addition, all health personnel should practice IPC protocols. The SP is responsible to ensure the IPC materials and supplies are available in COVID-19 ward/hospital as well as for RRTs. However, IPC materials and supplies will be provided to BPHS/EPHS health facilities through Sehatmandi Project.

- i. COVID-19 Facility Level Infection Prevention and Control (IPC): Triage, applying standard precautions for all patients (which includes hand hygiene, respiratory hygiene, rational use of PPE kits, safe disposal of all types of wastes, environmental cleaning, and sterilization of patients care equipment), Administrative controls (based on MoPH developed guideline).
- ii. Community level infection prevention and control: The SPs need to supervise and monitor the implementation of community level measures decided by the MoPH at their respected communities including social distancing, home quarantine, management of dead bodies, movement restrictions...etc.
  - 7. To enhance capacity of health care providers: The SP is responsible to cascade all capacity building activities at COVID-19 wards and hospitals as well as RRTs. These may include potential training events needed to train COVID-19 staff.
  - Service provider will supply the medical materials, consumable and other logistics required for COVID-19 patients rather than purchased by UN agency as per Para-L.
  - Service provider shall provide remuneration, risk& other benefits and food allowance as defined by the approved guideline.
  - Service provider shall budget running cost including minor renovations and maintenance of the COVID-19 wards/hospitals.
  - 11. MoPH Guidelines for COVID-19 case management, referral, and contact tracing, IPC, home Quarantine...etc. shall be implemented accordingly.

### NEGOTIATION MINUTES OF CONTRACT AMENDMENT-2

of the Urozgan Province under

Afghanistan COVID-19 Emergency Response and Health System Preparedness (ERHSP) Project AFG/MoPH/GCMU/COVID-19/29-amendment-2

Service Provider:

Date:

04/11/2020

SHIDP

Time: Venue: 2:00 PM GCMU meeting room

Agenda:

Clarification of the technical issues and negotiation on financial proposal

### Background:

The Ministry of Public Health (MoPH) of Afghanistan has signed the contracts with current BPHS/EPHS implementing partner under Afghanistan COVID-19 Emergency Response and Health Systems Preparedness (ERHSP) for four years covering the period of May 2020 till March 31, 2024. The original contract included 6 months' budget and work-plan. As the first six months of the contract will come to an end in early November 2020 and considering the possibility of second wave of COVID-19 particularly in upcoming winter, the MoPH planned to amend the current contract under COVID-19 ERHSP project for another six months.

Therefore, SHDP was requested to submit a brief technical and detailed financial proposals for Urozgan province. After the review of the proposals, the SHDP organization was invited to contract negotiations.

Following is the details of discussed and agreed points during the negotiation meeting:

### **Preliminary Matters**

- Confirm Power of Attorney/Authority to negotiate
- Confirm availability of proposed key staff (providing the confirmation letter signed by each key

### Negotiation on Technical points:

| No | Discussed issues   | Agreed Points |
|----|--|---------------|
| i  | Authority of the Technical Manager (K-1 position): According to the nature of the project, the K-1 should be given sufficient managerial and financial authority (at least 100,000 AFN/invoice), under a well-defined internal control system.   | Agreed        |
| 2  | The SP agreed to ensure 100% availability of two project key staff at the project level.  In case of unviability of any key-staff for more than two months in the province, the required disciplinary action will be taken by the MoPH accordingly.  | Agreed        |
| 3  | The SP agreed to revise the work plan and reflect the activities which have been missed in the submitted work plan. The SP agreed to implement the project work plan as per the agreed timeline.   | Agreed        |
| 4  | The SP is responsible to maintain the required number of technical and supportive staff in the COVID-19 ward/hospital for functionalizing of 50% of the beds. Maintaining technical, supportive and administrative staff to be through a transparent process and in close coordination with PPHD.  | Agreed        |
| 5  | The SP agreed to adjust the number of Rapid Response Team (RRT) as per the ToR from the effective date of contract amendment-2. Each RRT should be equipped with one vehicle (rental).  Note: One RRT is covering 300,000 populations in the province. Hence the number of RRT in this province is two (2) and the location will be selected in the first week of contract commencement in close coordination with PPHD. | Agreed        |
| 6  | The medicine will be provided by MoPH through UNICEF, however the SP is responsible to supply required medicines and avoid stock out.  | Agreed        |
